

“3X4 CORNER” CYPRESS PLANTER

ASSEMBLY INSTRUCTIONS

Travis Creek Wood Products

HERITAGE GARDEN COLLECTION © Designed by Kilian

A - 1 leg end

B- 1 stringer leg

C - 1 apron board

D - 8 basin boards.

E - 2 short bolts, 2 long

Cypress resist decay and rot and is perfectly suitable for direct soil planting of vegetables or flowers or may be used with potted plants (*landscaping fabric may be used to line bottom for soil planting. Planter drains throughout bottom*).

**Cypress will turn a silver grey if left natural or may be stained or sealed if desired. Natural Wood Products are expected to develop checks & anomalies over it's lifetime. -

1) Connect (**B**) stringer leg to Leg end (**A**) using a 1/2 wrench with SMALL bolts until snug. **DO NOT OVER TIGHTEN.**

2) attach apron board (drops in place!) **DO NOT OVER TIGHTEN.**

3) drop in basin boards as show above.
